

Colamark

Colamark A522 Semi-auto Soft-tube Labeling Machine

A522 offers a simple and reliable method for labeling on empty unsealed soft-tubes in small quantities. Using a mandrel to overcome the softness of the tube for labeling, the system offers consistent high labeling quality and precision. Change of material is also easy with the change of the mandrel. The system is also able to handle labeling with orientation with an optional attachment. A522 is simple to use, robust and offers excellent performance and is particularly useful for production needs with large variety and small quantities.

Features

- Easy to use.
- Adapt a large range of soft-tube diameter and height.
Easy adjustment between soft-tube sizes.
- Stationary rotation of soft-tube allows putting two labels around at a time.
- Pneumatic driven label adapting roller engagement for ease of use and consistent labeling effect.
- Orientation sensor for tubes with orientation labeling requirement.
- Servo driven labeling engine ensures speed and precision.
- PLC controlled operation
- User friendly HMI with program memory

Machine Model	A522
Bottle diameter	35mm ~ 50mm
Capacity	55 bpm (depending on material dimensions)
Labeling Precision	±1.0mm (excl. errors from materials)
Label passage width	Max. 200 mm
Air Pressure	0.4-0.7 Mpa
Weight	50 Kg
Machine Dimensions	(L)1100 mm × (W)810 mm × (H)1460 mm
Power Consumption	220VAC±5% 50Hz 0.8kW

(Custom engineered solutions are available to cater for customer's special needs.)
